

AMERICAN JEWS IN RUSSIA.

Their Rights Must Not Be Interfered With.

WASHINGTON, April 7.—The joint resolution calling on the president for information as to whether, by operation of the Russian laws concerning Jews, any American citizen of Jewish faith is subjected to restrictions which violate the treaty between the United States and Russia was on Wednesday reported to the house by Representative Chipman (Mich.). The report says that whatever we may think of these resolutions as part of the domestic policy for the government of the Russian Jews we cannot tolerate their application to any American citizen of any religious faith or race, as between Russia and the United States they are simply inadmissible if they are designed to control the conduct or to define the rights of any of our people who resort to that empire for the peaceful purposes of commerce or for any other purpose recognized by civilized nations.

Medical Testimony.

W. Thornton Parker, M. D., Recorder, Association of Acting Surgeons of the U. S. Army, writes:

"SALEM, Mass., March 23, 1891.

"When at Stuttgart, Germany, during the winter of 1881-82, I was suffering from a severe attack of bronchitis, which seemed to threaten pneumonia. I met, at the Hotel Marquardt, Commander Beardslee, of the United States navy. In speaking of my sickness, he remarked: 'Doctor, you can cure that chest trouble of yours by using an Allcock's Porous Plaster.' 'That may be true,' I answered, 'but where can I get the plaster?' 'Anywhere in the civilized world, and surely here in Stuttgart. Whenever I have a cold, I always use one and find relief.' I sent to the drug store for the plaster, and it did all my friend had promised. Ever since then I have used it whenever suffering from a cold, and I have many times prescribed it for patients.

"The Allcock Plaster is the best to be had, and has saved many from severe illness, and undoubtedly, if used promptly, will save many valuable lives. Whenever one has a severe cold they should put on an Allcock's Plaster as soon as possible. It should be placed across the chest, the upper margin just below the neck; some hot beef tea, or milk, will aid in the treatment.

"This is not a patent remedy in the objectionable sense of that term, but a standard preparation of value. The

government supplies for the U. S. army and Indian hospital stores contain Allcock's Plasters, and the medical profession throughout the world are well aware of their reliability and excellence. I shall always recommend it, not only to break up colds, but as useful in allaying pains in the chest and in the back. It is a preparation worthy of general confidence."
